The First Step Foundation

The First Step Foundation was organized in 2005 as the fundraising arm of First Step. Funds raised by the Foundation will benefit the programs and services of the First Step organization. First Step, Inc. was organized in 1958 to insure that services were available to special needs children within their own community. The purpose of the First Step Foundation is to insure that these services will always be available locally.

When you participate in First Step's Walk for Children, you will make a difference in the lives of children in your community. In the 53 years we've been in operation, hundreds, if not thousands, of children have taken advantage of the services offered by First Step. The Ann & Nick Tillman Project for Children with Sensory Needs is our newest program. There are many others, and many more children with other types of disabilities who need your help. You can help us make a difference. Sign up today!
